# NEW Room Sanitiser Fogger

Room Sanitiser Fogger is an alcohol-based solution and is a single-use, total release aerosol fogger that has been specially formulated with antibacterial and antiviral active substances offering total protection and reassurance.

**Cleanline Room Sanitiser Fogger offers total peace of mind, disinfecting an area in a matter of minutes.**

- Single-use, just click the total-release valve and it will expel and dissipate throughout the room within 20 minutes.
- Suitable for use in clean environments such as offices, guest rooms, washrooms and vehicles.
- Ideal for spaces of up to 100 cubic meters, more than one can be used for larger spaces.
- Solution evaporates, leaving surfaces dry.
- Covers walls, ceilings and out of reach places and areas usually overlooked or missed with traditional cleaning methods.
- Effective against bacteria and enveloped viruses. Independently tested to European Standard BS EN14476, EN1276 and EN1650.
