

Cleanse (rinse off)

Gentle cleansing during a shower or bath and occasional supplement to a no-rinse cleansing routine

TENA Shampoo & Shower

A mild, dual-purpose cleansing gel and conditioning shampoo designed for elderly, fragile skin and hair. TENA Shampoo & Shower is rinsed off with water and is suitable for everyday use.

- For regular, all body bathing and hair cleansing in the bath or shower while maintaining skin integrity
- Conditioning and anti-static properties plus provitamin B5 to make hair 10% easier to comb
- Gentle formula for fragile skin
- Dermatologically tested

Safety

The product fulfils the requirements of Regulation (EC) No. 1223/2009 of the European Parliament and the Council of 30 November 2009 on cosmetic products. As stipulated in Article 18 the product has not been tested on animals. The production unit is following the international standard ISO 22716:2007 as regards product documentation and Good Manufacturing Practices, GMP. The product has been evaluated with epicutaneous testing under dermatological control.

First aid

If discomfort is experienced after eye or skin contact, rinse for several minutes with lukewarm water. If eye or skin irritation persists, consult a physician. Upon ingestion of larger amounts, do NOT induce vomiting. Rinse the mouth and drink a glass of water. Where appropriate, consult a physician.

Physical properties

Physical state: Viscous liquid

Smell: Light fragrance

Solubility: Water soluble

pH: 5

Storage and period of use

Product durability after production (expiry date):

36 months

Period After Opening (PAO):

12 months

Recommended storage temperature:

It is recommended that TENA Shampoo & Shower is stored above 0°C, but not above room temperature (25°C). Protect from freezing, direct sunlight, extreme temperature variations and excessive heat. Exposure to high temperatures will accelerate the ageing of the product and the product durability cannot be guaranteed.
