Evacuation Solutions for Catering and Hotel Operators

**Can you get
everybody out in
an emergency?**

"The Regulatory Reform (Fire Safety) Order 2005 requires that all people using the building be provided with an adequate means of escape in case of fire. This includes a suitable escape plan."

"The Disability Discrimination Act 1995 (DDA) does not make any change to these requirements. Where an employer or a service provider does not make provision for the safe evacuation of disabled people

from its premises, this may be viewed as discrimination. It may constitute a failure to comply with the requirements of the fire safety legislation mentioned above."

According to Gov.uk, employers need to make provisions for disabled people and those of limited mobility should there need to be an emergency evacuation
