Making hospitality happen for a more sustainable future

REUSABLE AND RECYCLABLE HOT CUPS AND COLD BOTTLES

REUSABLE HOT CUPS

Zero Waste Cup™

Zero Waste Cup™ is a reusable and recyclable cup and lid range manufactured with an advanced EcoCore® technology. EcoCore® creates walls with a smooth inner and wavy outer face separated by an insulated foam core, typically reducing the amount of material needed to make products with the same performance as solid alternatives. Made from 100% polypropylene, Zero Waste Cup™ and lids are insulated, durable and dishwasher safe up to 1000 cycles.

REUSE
ME

RECYCLE
ME

The Zero Waste Cup™ reduces consumption of non-replaceable natural resources and the amount of energy needed for manufacturing.

ZERO WASTE CUP™

Zero Waste Cup:

- Reusable and recyclable
- EcoCore® technology
- 100% polypropylene
- Insulated
- Durable and dishwasher safe
- Lightweight
- Microwave safe

Circular Cup and Circular NOW Cup

Circular Cups are the world's first reusable coffee cups made from single-use paper cups. They last up to 10-years, after which they can be returned to Circular&Co. to be recycled and regenerated into another Circular Cup. With a unique 360° easy to open and close mechanism, Circular Cups are fully insulated, keeping drinks warm for up to 90 minutes.

Circular Cup (formerly rCUP)

Size: 12oz or 8oz

Available in a variety of colours

Circular NOW Cup

Size: 12oz

Available in mint, coral or black

REUSE
ME

RECYCLE
ME

Due to being predominately made from polypropylene, this product can be placed in mixed recycling at its end of life and can be identified and segregated at a Material Recovery Facility.

Circular Cup:

- Reusable and recyclable
- Made from single-use paper cups
- Up to 10-year lifespan
- Durable and dishwasher safe
- Insulated and leakproof
- Available in 12oz and 8oz sizes

Circular NOW Cup:

- Reusable and recyclable
- Made from single-use paper cups
- Up to 5-year lifespan
- Dishwasher safe
- Insulated
- Available in 12oz size

REUSABLE HOT CUPS

Ecoffee Cup

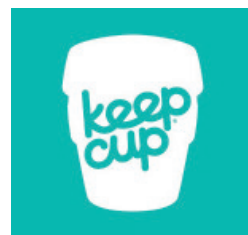

- Reusable and recyclable
- Available in sizes: 8oz, 12oz and 14oz
- Dishwasher safe

Made from a composite of natural fibre, corn starch and a plant-based resin, with a small amount of melamine as a production aid. The natural fibre used in Ecoffee Cup is an upcycled by-product previously burned by farmers. These materials are plentiful and do not require forest, food or compost-compromise farming. Suitable for daily usage to +100°C, with its lid closed, the Ecoffee Cup will keep your drink warm for up to 40 minutes.

KeepCup

After 10 uses KeepCup cups have a lower carbon footprint than compostable single-use cups.*

- Reusable
- Barista-standard
- Splash-proof lid
- Stackable
- Dishwasher safe

KeepCup is the world's first barista-standard reusable cup. Made from durable, BPA and BPS-free lightweight plastic, KeepCup features a splash-proof lid for ease of use and can be taken apart for thorough cleaning. It is dishwasher safe on the top rack and is microwavable with the lid off, up to 100°C/ 212°F. Available in sizes: 8oz, 12oz and 16oz.

*Bengtsson, J. 2018, Reusable Coffee Cups Life Cycle Assessment and Benchmark, Edge Environment. Based on drinking one coffee each weekday over four years for 12oz Original, Brew and Brew Cork KeepCups.

HuskeeCup

HuskeeCup is a range of reusable cups made from coffee husk waste, a by-product from coffee bean production. HuskeeCup cups are BPA-free and food safe approved. Extremely durable, HuskeeCup cups do not chip or crack easily and their thermal properties keep hot drinks hotter for longer.

The fins offer exceptional insulation, the lid can be squeezed on with one hand and there are drain slots on the base to remove excess water after dishwashing.

Huskee.™

HuskeeCup:

- Made from coffee husk waste, a by-product from coffee bean production
- Iconic fin design feature
- BPA-free and food safe approved
- Durable with thermal properties
- Dishwasher safe

REUSABLE COLD BOTTLES

Chilly's bottles

Chilly's water bottles are a rust-resistant, food grade stainless steel bottle with a metal construction inside and out for long-lasting, fresh tasting flavour. The double wall insulation maintains temperatures inside regardless of the temperature outside, keeping drinks cold for up to 24 hours and hot for up to 12 hours.

The revolutionary light-weight design is stylish and easy to handle, featuring a narrow mouth for spill-free drinking Chilly's bottles fits most cup holders and make a perfect travel companion.

Chilly's bottle:

- Vacuum insulated
- Food safe stainless steel construction
- Leak-proof screw top lid
- Sweat free and travel ready
- Lightweight and durable
- Handwash only
- Available in sizes: 260ml, 500ml and 750ml

CHILLY'S

* The main body and the collar are recyclable.
The silicone base and the lid are not recyclable.

Honest Bottle bottles

Manufactured in the UK from 100% post-consumer RPET, the 500ml Honest Bottle is the only reusable bottle designed and produced locally from recycled single-use bottles. Available in a range of 8 vibrant colours, the Honest Bottle is lightweight, has a curved design with an easy-carry loop, and a leakproof twist cap.

h o n e s t

Making hospitality happen for a more sustainable future

REUSABLE AND RECYCLABLE HOT CUPS AND COLD BOTTLES

UN SUSTAINABLE DEVELOPMENT GOAL 12 - TARGET 3

In 2018, we adopted the United Nations Sustainable Development Goals (SDGs) as our roadmap for action. The SDGs underpin our Sustainable Future programme and environmental targets. Introducing reusable products forms part of our strategy for delivering SDG Goal 12 Target 3: By 2030, substantially reduce waste generation through prevention, reduction, recycling and reuse.
