kp Infinity® top seal trays

The award-winning kp Infinity® range now includes top seal trays for food-to-go. The fully recyclable tray has a low carbon footprint, keeps food hotter for longer but stays cool to the touch. The artisan tray weighs less than traditional sealable options and is resistant to acids, alkalis and hot oils.

Infinity®

Packaging with a future

kp Infinity® top seal trays:

- Keeps food hotter for longer*
- Leakproof and water resistant
- Microwaveable
- Resistant to acids, alkalis and hot oils
- Suitable for peel and anti fog films
- Works with existing sealing equipment
- Drop-in replacement for rigid PP standard sizes

* Compared to rigid PP or alternative materials

Sustainability benefits:

- High quality plastic packaging that is easily and commercially recycled across the recycling process into a range of items, including other packaging, furniture and flooring
- Lightweight
- Low carbon footprint
- Consumer tested and approved
