Verive is a new, exclusive brand range of reusable food service packaging from Bunzl Catering Supplies. Specifically designed for a circular take-use-return programme, Verive products are suitable for repeat cleaning in a dishwasher. After multiple reuse and at the end of its full lifespan, Verive products identified as recyclable can be placed in a dedicated recyclables bin to be sent to a material recovery facility for recycling.

Hot cups | Tumblers | Cutlery | Containers | Portion pots | Burger boxes

Verive 360° is a market-leading service solution that helps you implement and utilise reusables in a circular system, at events, in-house or on-the-go. By providing deposit return with QR code and/or RFID technology and a fully supported collect, wash and return system, Verive 360° ensures reusables retain a full lifespan to deliver long-term value and optimum sustainability benefits.

For more information about Verive reusable food packaging - **please contact us today.**

Verive reusable premium PP hot cups and lids

Specifically designed for a circular take-use-return programme, Verive premium hot cups and lids are suitable for repeat cleaning in a dishwasher. Via Verive 360°, they can be collected, washed, and returned in a fully supported return system, ensuring longevity, and a positive customer experience each time.

Stagione® bowls with PP and rPET lid options

The unique shape of Stagione® bowls increases value perception by reducing portion size but maintaining the look of a generous serving. Made from FSC® mixed board and recyclable, Stagione® bowls offer superb heat retention for delivery and are suitable for the freezer, chilled, ambient, hot hold cabinets and the microwave.

Product codes:

Size	Dimension	Case
600ml	150/74.4 Ø x 80mm	300
1050ml	185/101 Ø x 72mm	300
1300ml	200/99 Ø x 81mm	300

Stagione® bowls:

- Kraft bowls with a PP lining
- Top down view gives high value perception
- Strong barrier properties
- Mixed FSC® board with on-pack label
- Suitable for the freezer, hot hold cabinets and the microwave
- Tight fitting rPET (with anti-mist coating) and PP lid options available
- Recyclable base – UK CPI guidelines/OPRL

Tray2Go trays and lids

Tray2Go is a fully recyclable packaging solution for sushi, other chilled food-to-go, confectionery and bakery products. Multifunctional and versatile, Tray2Go range features a robust and durable double-wall tray design, coupled with an innovative secure fitting click-lock lid. Made using sustainable materials, the board trays are manufactured in the UK, and made with FSC® certified material, while the lids are made from rPET, from a minimum of 50% recycled material.

Bamboo cutlery

Bamboo cutlery from Enviropack is FSC® certified and made from fully renewable resources. A suitable alternative to plastic cutlery, bamboo cutlery provides a practical and sturdy alternative to plastic cutlery.

Bamboo cutlery:

- FSC® certified
- Made from fully renewable resources
- Suitable alternative to plastic cutlery
- Practical and sturdy with no taste transfer

Product codes:

Product	Size	Case	Code
Knife	170 mm	500	E03874
Fork	170 mm	500	E03875
Spoon	170 mm	500	E03876

Notpla ice-cream spoons

These innovative ice-cream spoons are made from 'Notpla Rigid', an innovative material made entirely from seaweed and plants. It's naturally home-compostable - just like a fruit peel. Now you can enjoy your ice cream with the satisfaction of knowing you are helping to protect the planet.

Notpla ice-cream spoons:

- A unique, premium design, smooth mouth feel and a natural aesthetic
- Cutlery is manufactured in the UK
- Made from seaweed, one of nature's most renewable resources
- 100% free from plastic and PFAS
- Exempt from the UK and EU Single-Use Plastics Directive

For more information about Notpla ice-cream spoons - **please contact us today.**

SCJ Professional® Proline WAVE Dispenser

A 1-litre washroom soap dispenser made with 70% recovered coastal plastic, sourced from a global partnership between SC Johnson and conservation organisation Plastic Bank™. Recovered coastal plastic is post-consumer recycled plastic collected on land within 50 km of an ocean so that it does not reach oceans or landfills, in countries with high volumes of uncollected plastic waste.

Proline WAVE Dispenser:

- Each dispenser is the equivalent of 16 x 500ml recovered coastal plastic waste plastic bottles.
- The push buttons on the dispenser are protected by BioCote®, a silver-based antimicrobial agent that inhibits the growth of bacteria and moulds - effective for its lifetime.*

Foam Hand Soap Refills:

- A full range of foam soaps, supplied in ultrasonically sealed airless cartridges which ensure a fresh dose every time.
- Compared to traditional lotion soaps they provide an effective, pleasant hand wash using up to 45% less water and 30% less product when washing and rinsing.**

* BioCote® is a registered trademark of BioCote® Ltd. BioCote® technology effectively reduces bacteria, mould and fungi on the surface of the BioCote® treated SCJ Professional® Proline WAVE dispenser push-button within as little as 2 hours and achieves up to 99.99% reduction over a 24 hour period (efficacy independently validated by ISO methods). BioCote® technology maintains its antimicrobial protection for the lifetime of the dispenser button and will not wear off, wash off or leach out; it is not a substitute for good hand hygiene practices. ** SC Johnson Professional sponsored study: Media4Change Ltd. How a Single Change in a Washroom can significantly reduce water consumption and associated costs, 2011.

re:mind®

REVIVE : RELAX : RENEW

RE:MIND offers a luxury hand and body care range; raising the bar through a first of its kind collaboration with Amplify Goods, a certified diverse social enterprise. *Amplify Goods will donate at least 50% of their profit from RE:MIND to supporting grass-roots charitable projects.* The range launches with a cleansing and uplifting Hand and Body Wash, available in 5L refills, and a nourishing Hand and Body Lotion with soothing shea butter in 1L refill pouches. Both are paired with 500ml glass bottles that are washable and built to last. The reusable bottles are produced and hand-packed in the UK using upcycled cardboard waste from local businesses.

RE:MIND hand and body care:

produced by
**Amplify
Goods.**

- Made from 96 - 99% naturally-derived ingredients to moisturise the skin
- No artificial perfumes or dyes, harsh detergents, or preservatives
- Vegan society certified
- No toxicological endpoints
- Reusable and refillable 500ml glass bottles

For more information about RE:MIND hand and body care - **please contact us today.**

The Refill Socket Mop

The Refill Socket Mop consists of two parts: a replaceable mop head refill and a detachable, reusable socket and clip (sold separately). When the mop head is old and dirty, the unique, patented* socket simply unclips for easy mop head disposal and the socket can be used again and again. Three types of mop heads fit the reusable socket, which is available in green, blue, red, yellow or white to prevent cross-contamination.

PY Mop Head Refill

Weight: 150g
Case: 1
Code: P10692

Big White Mop Head Refill

Weight: 85g
Case: 1
Code: P10694

Twine Mop Head Refill

Weight: 160g
Case: 1
Code: P10693

Green

Case: 1
Code: P10696

Blue

Case: 1
Code: P10695

Red

Case: 1
Code: P10697

Yellow

Case: 1
Code: P10699

White

Case: 1
Code: P10698

The Refill Socket Mop:

- An innovative alternative to the traditional socket mop with sustainability benefits
- Mop heads are easy to fit, washable and long lasting
- Choice of cotton-rich mop, or low-linting, highly absorbent Big White mop
- Cost-effective - only dispose of the mop head, not the reusable socket

Reducing plastic waste:

The average socket contains 25g of plastic. So, multiply the number of mops you use a week, month or year by 0.025 to calculate the kilograms of plastic saved.

*UK Patent No. 2497337

Cleanline® Eco Laundry Leaves

Cleanline® Eco Laundry Leaves are a sustainable alternative to traditional laundry detergent. Each sheet equates to one dose. Delivering a fantastic clean, Laundry Leaves are up to 90% smaller and lighter than traditional formats, all housed in recyclable, biodegradable and compostable cardboard packaging.

How to use:

- Place sheet directly into the drum
- Load the drum with laundry (wash on 20°C to 90°C)
- Initiate your standard washing cycle

Ultra-Concentrated Laundry Detergent Sheets - Non-Bio.

Laundry Leaves:

- Free of plastic packaging
- Leaves no residue on your clothes
- Takes up next to no space in storage
- Up to 16 x lighter than powder, liquid and pods
- Works from 20°C and handwash capable
- Vegan and cruelty-free
- No dosing or pouring - no spilling

For more information about Cleanline® Eco Laundry Leaves - **please contact us today.**
