LESSEAU Manual Dispenser and Solid Hand Wash Bars

Embracing the timeless method of hand washing with solid bars, integrating cutting-edge technology to eliminate plastic waste and reduce water usage, these patented dispensers and hand wash bars are designed for professional environments, ensuring hygienic use while addressing the pressing needs of customers and the planet. Experience the luxurious, fragranced, plant-based formulation that perfectly aligns with the latest trends and consumer demands.

12 bars = 7L of traditional liquid soap

LESSEAU solid hand wash bars:

- **Maximize efficiency:** innovative design ensures 100% of the solid hand wash bar is used, compared to traditional dispensers that can waste up to 25% of product
- **Never-empty dispenser functionality:** featuring a unique, patented technology allowing never-empty functionality with three hand wash bars (providing over 1800 doses) and a convenient product level indicator, ensuring there is always product on-hand
- **Space-saving design:** the compact, space-efficient design requires less storage than liquid hand wash refills, helping you to save valuable space while still providing top-level hygiene
- **Simple, effortless maintenance:** enjoy easy installation, intuitive operation, and low maintenance
