Making hospitality happen for a sustainable future

Food Packaging

**NEW
2025**

Featuring exclusive brands:

Helping hospitality every day

Utilizing global purchasing resources to buy responsibly and ethically, we source, consolidate, and deliver essential non-food consumables to our customers in the hospitality industry via a national network of 7 operating branches, including a National Distribution centre in Tamworth. We offer a choice of flexible ordering and delivery options, with dedicated customer service and account management teams that foster personal relationships and deliver unparalleled sector expertise.

We buy responsibly and ethically

We build long term relationships with international partner suppliers to ensure products are sourced responsibly and ethically. Our rigorous approach to sourcing is supported by an experienced procurement team in the UK and a dedicated quality assurance and control team in Shanghai. We audit supplier performance against commercial and social measures to ensure the products we source are fit for purpose, and legally compliant.

EXCLUSIVE
BRAND

Making hospitality happen for a sustainable future

Exclusive brand products that reduce waste and meet your sustainability targets

Our Sustainable Future programme drives communication, collaboration, and stakeholder engagement on a range of corporate sustainability issues and is underpinned by long-term objectives to deliver UN Sustainable Development Goals (SDGs) which provide a clear path for continual environmental improvement.

Our exclusive brand suite of sustainable product brands, including ReGen (recyclable), and Sustain (renewable), provide customers with an un-bias choice of innovative product solutions that can reduce waste, lower carbon footprint, and meet your sustainability targets.

CUSTOMPRINT

Promote your brand with custom printed food packaging

Printed food packaging is a cost-effective marketing tool used by hospitality operators to promote their brand and help them be more visible in a competitive food service environment. Our dedicated print management team works closely with leading suppliers to design, create and manage bespoke printed items for our customers, with dedicated stock holding agreements to ensure continuity of supply.

We print:

- ✓ Cups & tumblers
- ✓ Carry trays & plates
- ✓ Hot food containers
- ✓ Pizza & burger boxes
- ✓ Salad boxes & pots
- ✓ Cake boxes & labels
- ✓ Paper & plastic bags
- ✓ Napkins & coasters

Helping you remain food packaging labelling compliant

Our Gen-Label Online software solution helps businesses comply with food packaging labelling requirements via a secure web portal. Quick and simple to use, it manages all labelling requirements from product descriptions, ingredients and bar codes to allergen and nutritional information, including the Government's front of pack traffic light system.

Sustain is a range of food service packaging made from renewable resources and/or compostable with EN13432 certification. Sustain products labelled compostable are fully compostable in commercial composting facilities and will break down into reusable compost within 12 weeks. All compostable products should be placed in a dedicated compostables bin to ensure they are sent for composting.

Responsibly sourced

Sustain food packaging is sourced and manufactured in an ethical and responsible way. We audit and manage our supplier performance against many commercial and social measures to ensure the products we source are fit for purpose with the relevant ethical and legal compliance. Taking a responsible approach to sourcing ensures customer peace of mind.

Renewable

Sustain food packaging is made up of components or materials derived from natural sources that can be managed responsibly so that they will replenish or regenerate. These materials are usually generated from plants or trees and can be certified to industrial composting standard EN13432 or may have a home composting certificate.

Compostable

Sustain food packaging certified EN13432 is engineered to break down into organic matter when disposed of correctly. EN13432 certification is a stringent standard recognized worldwide. It gives clear information on how to dispose of a product so that it may undergo a controlled and efficient decomposition process in industrial composting facilities.

EXCLUSIVE
BRAND

COMPOST
ME*

Responsible choice

EN13432 certification for compostability gives you confidence in the materials and end of life solutions for Sustain food packaging.

Consumer appeal

Sustain food packaging appeals to consumers because it lets them know that you buy responsibly, ethically and sustainably.

Waste reduction

Sustain food packaging can help you cut down landfill and incineration waste, contributing to improved waste management.

Resource conservation

Responsibly sourced and utilizing renewable resources, Sustain food packaging reduces reliance on fossil fuel-derived materials.

Renewable materials

Composting Sustain food packaging materials means supporting soil systems and helping to regenerate renewable materials.

Legislation compliance

Adhering to existing and incoming legislation, Sustain food packaging provides alternatives to products affected by bans or restrictions.

*Only Sustain food packaging certified EN13432 is suitable for industrial composting.

ReGen is a range of recyclable foodservice packaging in line with OPRL (on-pack recycling labels) guidelines. ReGen products are suitable for direct contact with food. All recyclable products should be cleared of food waste and liquids and placed in a dedicated recyclables bin to ensure they are sent to a MRF (Material Recovery Facility) for recycling.

When sent to a MRF (Material Recovery Facility) for recycling, ReGen food packaging diverts waste from landfill by giving the recyclable material a chance for a second life.

Responsibly sourced

ReGen reusable food packaging is sourced and manufactured in an ethical and responsible way. We audit and manage our supplier performance against many commercial and social measures to ensure the products we source are fit for purpose with the relevant ethical and legal compliance. Taking a responsible approach to sourcing ensures customer peace of mind.

Recyclable

ReGen is a range of recyclable foodservice packaging in line with OPRL (on-pack recycling labels) guidelines. When sent to a MRF (Material Recovery Facility) for recycling, ReGen food packaging can help you increase your recycling rates and divert waste from landfill.

**RECYCLE
ME**

Responsible choice

Sourced ethically to our stringent specifications, ReGen food packaging is suitable for recycling solutions in the UK.

Recyclable

Recyclable in line with OPRL (on-pack recycling labels) guidelines. On-pack recycling labels are used widely throughout UK packaging to deliver a simple and consistent message that supports recycling.

Waste reduction

When sent to a MRF (Material Recovery Facility) for recycling, ReGen food packaging can help you increase your recycling rates and divert waste from landfill.

Consumer appeal

ReGen food packaging appeals to consumers because it lets them know that you buy responsibly, ethically and sustainably, with a viable end of life solution in mind.

Legislation compliance

Adhering to existing and incoming legislation, ReGen food packaging provides alternatives to products affected by bans or restrictions.

Bespoke print

ReGen food packaging can be bespoke printed with your business branding, sustainability messaging, and recycling instructions, including QR codes.

Taste Hot Box and Lid

- Lightweight yet strong and rigid
- Microflute design which enables great heat transfer into the food
- Large window for excellent visibility and on-shelf display
- Insulated for excellent heat retention
- The base is ovenable, suitable for use with Turbo and Merry Chef ovens up to 200°C for 30 minutes and microwavable
- Suitable for freezing down to -20°C

Description	Case	Code
Box	320	G07526
Lid to Fit	320	G07527

G07526 (and lid G07527)

*Suitable for recycling where facilities exist, and when not heavily soiled with grease or food residue.

Board and film hot food packaging

'Some like it hot' PP Lined Board and Film Packaging

An intelligent food packaging solution, suitable for hot cabinet holding equipment, that creates a microclimate within the pack to prevent too much moisture being lost, whilst keeping the food hot.

- Fully tested and validated for holding hot food for 4 hours at 90°C
- Unique construction protects the product
- Fresh and tasty from when it is packed
- Protects food from drying out
- Ergonomic design aids eating on the move
- Microwaveable
- Easy to assemble and pack product
- Recyclable board

Notpla Coating:

- A special lining made from seaweed
- Naturally renewable resource
- Grows fast, is globally abundant and readily available
- Does not compete with food crops for land, or require fresh water or fertiliser to grow

Notpla Coated Food Packaging:

- Boxes manufactured in the UK
- Saves over 250kg carbon-dioxide and 3000L per tonne of cartonboard when compared to conventional fresh-fibre alternatives*
- Fully recyclable (food contamination dependant)
