## Renewable food service packaging

Sustain is a range of food service packaging made from renewable resources and/or compostable with EN13432 certification. Sustain products labelled compostable are fully compostable in commercial composting facilities and will break down into reusable compost within 12 weeks.

**Hot cups | Tumblers | Cutlery | Containers | Bags | Paper straws**

**EXCLUSIVE  
BRAND**

- ✓ **A responsible choice**
- ✓ **Improved waste management**
- ✓ **Renewable materials**
- ✓ **Consumer appeal**
- ✓ **Resource conservation**
- ✓ **Legislative compliance**

### Sustain Agri Bag

Made from agricultural waste fibres, the leaves and stems left in a field after crops are harvested, Sustain Agri Bags have a carbon footprint 28% lower than a standard paper bag made from virgin material, are made from renewable sources and are fully recyclable.

- **Paper SOS bag made from agricultural waste fibres**
- **Made from renewable resources**
- **100% recyclable in a paper waste stream**
- **Suitable for chilled and ambient wrapped foods, not suitable for direct food contact**
- **Non-microwaveable**

**Please contact us today to find out more about our market-leading Sustain renewable and/or compostable products.**
