Hotel Supplies Brochure

Introduction

Welcome to the new Hotel Supplies range from Bunzl Catering Supplies. This new expanded range is designed to provide hotels with the products they need to enhance their service offer to customers and improve room revenue.

The hotel sector is without doubt the most complex in the hospitality industry. The requirement to provide guests with accommodation, food and a whole host of other on-site services makes the efficient running of any hotel a challenging task.

Bunzl Catering Supplies are experts at managing complexity and we have built our reputation on being able to deliver a genuine one-stop shop solution to customers that both minimises risk and maximises service. We understand the varied requirements of the hotel sector and we can provide the specialist products and services you need, whatever your requirements.

As part of Bunzl PLC, a FTSE 100 company with operations around the world, we are able to leverage Bunzl's global scale and buying power to source the right products at the right price to meet your requirements. This Hotel Supplies brochure summarises all our key ranges but if they do not meet your precise requirements then our specialist Category Management teams are available to source alternatives for you.

We already supply many of Europe's leading hotel chains and franchises and we recognise the critical importance of brand identity in the hotel sector. We are used to sourcing products to meet precise brand standards and we also offer a bespoke print service for branding in-room toiletries, guest kits, and employee uniforms.

We hope you will find something in this brochure to inspire you.

We understand the complexity of operating hotels and can offer a complete one-stop-shop proposition covering all your non-food product requirements, available via one consolidated order.

Exclusive brands

Thanks to our sourcing expertise we can also supply a wide range of Bunzl exclusive brands which offer outstanding value compared to branded alternatives. Exclusive brand manufacturers conform to the high standards demanded by the Bunzl Ethical Sourcing Policy.

Sustainability

Via our 'Sustainable Future' programme we have worked with many leading hotel chains to help them achieve their sustainability and carbon reduction goals. We also provide expert insight and advice on the latest Government legislation.

Global purchasing power

As part of a multi-national FTSE 100 company we can leverage our global buying power and expertise to deliver outstanding value when sourcing products to meet your exact requirements.

Brand standards

In hotels, presentation is everything. We have a proven track record of managing and delivering non-food product ranges to exacting brand standards. We also offer a bespoke print service for branding in-room toiletries, guest kits, and employee uniforms.

Compliance and reporting

We offer detailed KPI's and comprehensive management information to ensure you have the accurate data you need to run your business as efficiently as possible, ensure contract compliance, and drive continuous improvement.

National network with a local service

Ease of ordering

We offer a variety of ordering options designed to make the process as quick and simple as possible. This includes a wide range of e-commerce options ranging from a simple-to-use website through to EDI and punch-out solutions which can be integrated with your own company buying platforms.

Reliable deliveries

We operate our own national delivery fleet which means uniformed drivers, delivering to the correct, agreed delivery location with a 2 hour delivery window notification and instant access to PODs as standard. Our 'Clean Invoicing' process removes the need for credits for damaged and missing goods as our customers confirm they are happy with the delivery prior to the invoice being raised.

Emergency orders

We understand that even with the best planning, things sometimes go wrong. In addition to our regular scheduled deliveries Bunzl also provides a next day emergency order delivery service (for orders placed before 12 pm) when you need products fast.

Innovation and samples

The industry is constantly changing and the need to innovate and improve has never been greater. Our product specialists offer advice on the latest products and can organise samples for you to trial on-site at a time that suits you.

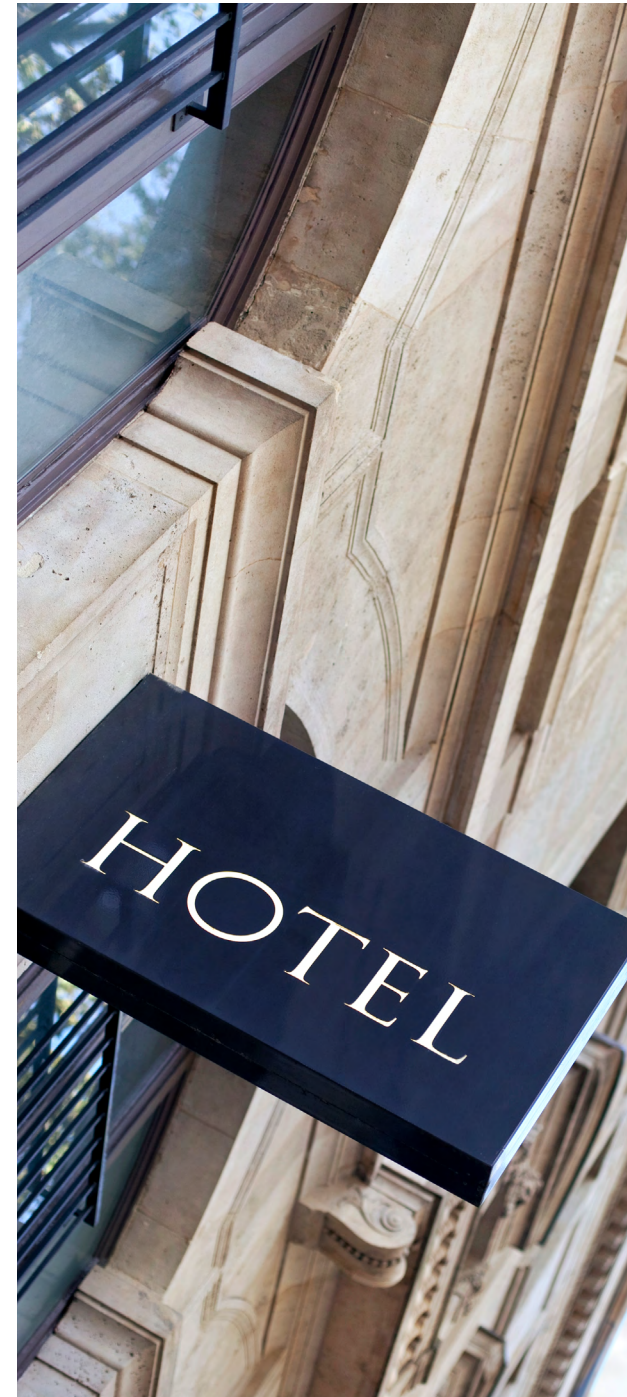

New Bunzl 'Concierge' for hotels

We are constantly looking at ways to improve the level of service we can offer our customers in the hotel sector. As a result we are delighted to announce the implementation of our new 'Concierge' service.
