100% recycled* napkins for fine or casual dining

TableSMART 1 ply, 2 ply and 3 ply napkins are now 100% recycled. Suitable for all dining events, they offer exceptional value for money without a compromise on quality. Whether you are serving food in a fine dining restaurant, or a quick service environment, TableSMART delivers a range of aesthetic and practical tableware solutions for your hospitality operation.

Switching to 100% recycled napkins saves 359 tonnes of virgin material each year - the equivalent weight of three blue whales.

Complement your seasonal menus with themed tableware

The trend for seasonally themed tableware continues to grow as hospitality operators increasingly adapt menus throughout the year to celebrate popular events with festive foods, or to reflect the season with in-season produce.

Our extensive range of tableware, custom print service, and annual Christmas tableware collection, ensures customers can choose from a range of tableware to suit all seasons, events or festive menus.

* All napkins in the range are 100% recycled with the exception of black and Airlaid napkins.

Promote your brand with custom printed tableware

.....

We help businesses to promote their brand by offering a bespoke print service on a range of tableware and food packaging products, helping to raise the profile of a brand for only a few pence more than the cost of a standard item.

Our dedicated print management team works closely with leading suppliers to design, create and manage high-quality, eye-catching printed items for our customers.

We custom print:

- ✓ Napkins and coasters
- ✓ Paper and plastic bags
- ✓ Cups and tumblers
- ✓ Carry trays and plates
